Summary

Dynamic Software Engineer with a proven track record at Invenger Technologies, specializing in scalable web applications and API integration. Adept at problem-solving and team leadership, I have successfully enhanced product features and mentored junior developers, driving project success through effective collaboration and innovative solutions.

Skills

- Python
 - Web development
 - API integration
 - Git proficiency
 - HTML
 - React.js
 - Bootstrap
 - Machine learning
 - Postman
 - Continuous integration
 - Software applications
 - IDE usage
 - Project management
 - Product development
 - Team leadership
 - Communication skills
 - Programming
 - Communication skills
- SQL
 - Software development
 - Database management
 - MongoDB
 - CSS
 - Next.js
 - C programming
 - Cypress
 - Security best practices
 - Deployment tools
 - Code debugging
 - Database querying
 - Project planning
 - Cross-functional collaboration
 - Problem solving
 - Client communication
 - .NET development
 - Code debugging

Experience

- Software Engineer**

02/2025 - Current

Invenger Technologies Pvt.Ltd | Mangalore, India

- Developed, tested, debugged, and documented software programs using Java, JavaScript, HTML, and CSS, ensuring high-quality deliverables.
 - Developed scalable software solutions for clients in various industries.
 - Collaborated with cross-functional teams to enhance features and improve user experience across products.
 - Utilized a variety of engineering languages to develop web applications.
 - Integrated third-party APIs and services, improving software functionality and interoperability with external systems.
 - Mentored junior developers, providing guidance on coding standards and techniques.
 - Participated in regular meetings with stakeholders to discuss project progress, changes, challenges.
- Intern**

01/2023 - 01/2024

Niveus Solutions | Mangalore, Karnataka

- Designed and implemented intelligent fleet management system to optimize vehicle utilization and enhance operational efficiency.
 - Assisted in developing software solutions for client projects.
 - Collaborated with team members on project requirements and specifications.
 - Conducted research to support product development and innovation efforts.
- IEI Core Team Member**

01/2023 - 01/2024

Institution of Engineers (India) (IEI) | Mangalore, Karnataka

- Collaborated with a team to organize and manage technical events, workshops, and seminars. Actively contributed to team meetings, providing insights and suggestions for continuous improvement of IEI activities.
 - Led collaborative projects to enhance engineering practices and community engagement.
 - Coordinated events and workshops to promote professional development among engineers.
 - Developed training materials and resources for engineering professionals and students.
- IEEE Team Member**

01/2022 - 01/2024

Institute of Electrical and Electronics Engineers (IEEE) | Mangalore, Karnataka

- Observed software development processes, project management techniques, and innovative logistics solutions at industry-leading companies, including Novigo Solutions and A1 Logics, to gain insights into real-world applications of engineering principles.
 - Collaborated with team members on project planning and execution.
 - Assisted in organizing workshops and seminars for professionals.
 - Coordinated communication between departments to streamline operations.

Education

- Bachelor of Engineering:** Computer Science

06/2025

Sahyadri College of Engineering and Management | Mangaluru, India

GPA: CGPA - 9.45
- Pre University:** PCMB

01/2021

Nalanda Gurukula International Independent Pre University College | Kushalnagar, India

GPA: Percentage - 91%
- Indian Certificate of Secondary Education**

01/2019

Karumbiahs Academy For Learning And Sports | Gonikoppal, Coorg, India

GPA: Percentage - 84%

Projects

- Inoora (Agentic AI-Powered Automation & Device Management Platform) | 2025 - 2026**

A multi-flow agentic AI-driven system designed to enable secure device management and workflow automation across mobile, desktop, and web environments.

- Built a **custom Mobile Device Management (MDM)** solution for BYOD environments using **Android (DPC)** architecture.
 - Implemented **work/personal profile separation**, allowing admins to control only enterprise data while preserving user privacy.
 - Integrated **Firebase Cloud Messaging (FCM)** for real-time device monitoring, communication, and policy enforcement.
 - Developed an **automation engine** for browser and desktop applications using **Playwright** (web) and **FlaUI + WPF (C#/ .NET)** for Windows headless execution.
 - Contributed to **cross-platform development:** Android (APK), iOS, and Windows (.exe).
 - Built a **Next.js admin dashboard** for centralized control, analytics, and user/device management.
 - **Showcased at GITEX Global 2025 (Dubai)** as part of company product demonstration.
- Ventura Grand Inn (Hotel Booking & Management Platform) | Feb 2025**

- Developed and deployed the official hotel website with an optimized booking experience.
 - Integrated **Stripe** for secure online payments and **Cloudbeds** for hotel operations.
 - Designed a **custom loyalty program** to increase repeat bookings and customer retention.
 - Implemented **AI-based business insights** (e.g., weather-driven recommendations to improve guest experience and revenue).
 - Improved booking flow and UI/UX for better conversion and usability.
- Learning Management System (LMS) | Jun 2024**

- Built a responsive LMS using **React.js** with modules for courses, assignments, quizzes, and performance tracking.
 - Designed interactive UI components to enhance engagement and usability.
- Fleet Management System | Jun 2023**

- Developed a full-stack system using **MERN stack, Firebase, and MongoDB**.
 - Implemented real-time fleet tracking and route optimization using **Leaflet API**.
 - Built a responsive UI with **Tailwind CSS** and **Shadcn**.
- Healthcare Website for Hospitals | Jun 2023**

- Created a healthcare platform using **React.js** with features like patient management and appointment scheduling.
 - Enabled online consultations with a clean and intuitive interface.

Extracurricular Activities

Institution of Engineers (India) (IEI), IEI Core Team Member, Mangalore, Karnataka, 2023 - 2024, Collaborated with a team to organize and manage technical events, workshops, and seminars. Actively contributed to team meetings, providing insights and suggestions for continuous improvement of IEI activities. Institute of Electrical and Electronics Engineers (IEEE), IEEE Team Member, Mangalore, Karnataka, 2022 - 2024, Gained insights into real-world applications of engineering principles by visiting industry-leading companies, including Novigo Solutions and A1 Logics, where I observed software development processes, project management techniques, and innovative logistics solutions.

Internship

- Invenger Technologies — Software Developer**

Feb 2025 – Feb 2026

- Worked on building **Inoora**, an AI-powered automation and device management platform.
 - Developed a **custom Android MDM (DPC)** solution enabling secure BYOD usage with work/personal profile separation.
 - Implemented real-time communication using **Firebase Cloud Messaging (FCM)** for device control and monitoring.
 - Built automation systems for **browser and desktop applications** using **Playwright, FlaUI, and .NET (WPF headless executables)**.
 - Contributed to **cross-platform development** (Android, iOS, Windows .exe).
 - Developed a **Next.js admin panel** for centralized management and analytics.
 - **Showcased the product at GITEX Global 2025 (Dubai)**.
 - Also worked on hardware-integrated prototypes using **Arduino, ESP32, and Kinect** for object detection use cases.
- Niveus Solutions — Intern**

Mangalore, Karnataka | 2023 – 2024

- Contributed to the development of an **intelligent fleet management system**.
 - Focused on optimizing fleet operations using **data analysis and algorithmic approaches**.
 - Assisted in building scalable system components and improving operational efficiency.

Certifications

- Database and SQL
- Full Stack Development
- ChatGPT Prompt Engineering Mastery
- C++ Complete Training Course
